Hi Dave,

Attached is a new spreadsheet that combines the spreadsheet with the PFAS used to make polymers and the one with the chemicals specifically listed and those with test methods. Also attached is a Word document that contains the text from the NDAA that covers the section "(d) INCLUSION FOLLOWING DETERMINATION." A-M of that section cover specific PFAS, N covers test method PFAS, and O covers PFAS used to make fluorinated polymers. In the spreadsheet there is a tab for A-N and O.

Let me know if you need anything else.

Dan
